## INTRODUCTION

Our Comenius Project is titled “European Musical Portfolio”. There are six countries participating in it: Spain- the coordinator of the project  
Italy  
Turkey  
Romania  
Wales  
Poland  
The project lasts for two years 2010-2012.  
Primary and secondary students with their

teachers take part in this project.

European Musical Portfolio covers two main functions:

1. **Informative function:** It shows information about the musical level of our pupils related to a Common European Frame of Reference.

2. **Pedagogical function:** It shows a deeply analysis about the way our pupils learn music.

In our magazine we will try to present each of the participant and familiarize you with the activities done during the project as well as to show our achievements.

## THE FINAL

This common online magazine is the final product of our Comenius Project compiled by the Polish team.

It was a great pleasure to take part in such a memorable experience and meet so many wonderful people from different countries.

We can say that during the work in the Project we have obtained our aims. Our children were able to learn about customs, habits and traditions of the participating countries. Their musical knowledge increased and many of them developed their talents in different aspects of music. They also improved their language skills as we encouraged them to use English in many activities.

The teachers had opportunity to exchange their pedagogical experiences and had a look at different educational systems.

We made a lot of new friends that won't finish with this project.

*Thank you for cooperation  
and maybe see you in the next project.*
